- **Be able to follow/unfollow other users**
- **Enable users to send, accept, and decline offers on products**
- **Provide a search feature to search for other users**
- **Develop a recommendation system for curated feeds based on the user's interests**

User Stories and Sprints:

1. **Sprint 1**
   1.1. As a user, I want to login/sign up for the website so that I have a personalized account for the application
   1.2. As a user, I want to post my products so that people can see what I have to offer
2. **Sprint 2**
   2.1. As a user, I want to send and accept/decline offers from others so that other users can know what I'm interested in and I can see what others are interested in what I have to offer
   2.2. As a user, I want to search for products using keywords and filters so that I can look for specific posts that I might be interested in
   2.3. As a user, I want to be able to view my profile of posted products so that I can see if there are any posts that I want to delete or change
3. **Sprint 3**
   3.1. As a user, I want to be able to follow others and view who follows me so that I can feel the social media aspects of the application
   3.2. As a user, I want to view my recommended feed so that I can have a curated feed for me based upon my interests
4. **Sprint 4**

4.1.   As a user, I want to be able to scan a QR code to view each user's personal page so that I can easily share my profile

4.2.   As a user, I want to message other users to communicate with them about details about offers or specifics
